Comments:

This form will automatically print at the end of each IEP. You can access and modify the form either through the IEP or through the Student Forms. The form should be completed by the primary provider after any change is made in student programming or after IEP annual update. Once WebKIDSS file is updated the primary provider should route this form to the school psychologist office. The school psychologist will "Adopt" the IEP and send this form to the NCKSEC office.
